

DEEPAK BHARTI

Software Developer — Python / Django / React

Chauri Chaura, Gorakhpur, UP 273413 | 9120041854 | deepak28609@gmail.com | github.com/deepakbharti-cloud

PROFILE SUMMARY

Diploma in Computer Science & Engineering, currently pursuing B.Tech in CSE (2nd year) at ITM Lucknow. Hands-on experience with Python/Django, building full-stack web applications with REST APIs and responsive dashboards. Completed summer training at Softpro India as a Coordinator, resolving technical issues for trainee batches and managing training activities. Currently a Trainee Software Developer, looking to grow into a strong full-stack engineering role.

EXPERIENCE

Trainee Software Developer / Summer Training Coordinator | Softpro India Pvt. Ltd., Lucknow *Present*

- Currently working as a Trainee Software Developer, collaborating with the development team on feature builds, bug fixes, and code reviews in a production environment.
- Earlier served as a Summer Training Coordinator, coordinating a batch of students during summer training — resolving code/technical errors and managing day-to-day training activities.
- Guided the batch through the File Tracking System project for Green Gas Limited, built on Python/Django.

KEY PROJECTS

File Tracking System — Green Gas Limited | Summer Training, Softpro India *2026*

- Built a centralized digital platform in Python/Django to streamline file creation, movement, approval, and tracking with real-time status updates and audit trail.

KaaryaSetu — Hyperlocal Labor Marketplace | Personal Project *2026*

- Developed a Laravel-based platform connecting local skilled workers with customers, including booking, listings, and role-based access.

AutoGrade AI — Automated Answer Sheet Evaluation | College Major Project *2025 – 2026*

- Built an AI-powered evaluation system using Django, OpenCV, and Tesseract/EasyOCR to extract handwritten answers from scanned sheets.
- Integrated HuggingFace's flan-t5 model for semantic scoring, with automated PDF reports via ReportLab.

SmartBuild Hub — Digital Home Construction Platform | Summer Training *2025*

- Built a digital platform using Django and MySQL to streamline home construction workflows and centralize project data across stakeholders.

TECHNICAL SKILLS

Programming: PHP with Laravel, Python with Django & NumPy, Programming in C

Web: HTML, CSS, JavaScript, React, Bootstrap, Tailwind CSS

Database: MySQL, MongoDB

Backend & APIs: REST APIs

Tools: Git & GitHub, VS Code

Soft Skills: Teamwork & Leadership, Effective Communication

Languages: English, Hindi

EDUCATION

B.Tech, Computer Science & Engineering | ITM Lucknow *2nd Year*

Diploma in Computer Science & Engineering | CSJM Govt. Polytechnic, Ambedkar Nagar

Intermediate (PCM) | Govt. Jubilee Inter College, Gorakhpur

High School | PNSJI College, Barhi Sonbarsa, Gorakhpur

CERTIFICATIONS & ACHIEVEMENTS

- Soft Skill Development Certification (UNXT) — SGBS Unnati Foundation. Focus: Communication, Teamwork, Problem-Solving, Workplace Ethics.
